DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15, 20-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Hess-5,120,308.

Hess-'308 (Fig. 1-4, 7 and 10; claims 1 and 3; col. 6, lines 29-43; col. 6, line 63 to col. 7, line 22, for example) discloses pusher wire 14 of stress-induced martensite shape-memory alloy including a distal section with reduced cross-section portion 16, 18, 20 as a flexible hinge and tip assembly 20/22/42 (Fig. 7) as a pusher pad. Notice that the distal end of conical section 20 defines a cross sectional area of reduced size relative to both pusher wire 14 and the pusher wire end section 22.

Allowable Subject Matter

Claims 16-19 and 22 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
